

# Sills Air Range COVID-19 Procedures

(as of 11 December 2020)

**NOTE: If you are not comfortable with the procedures below, please do not come to the air range yet.**

## General Measures (subject to change)

- *Open for the following:*
  - Monday/Friday open practices – check the air range calendar for hours
  - Other scheduled practices and matches on the air range calendar
  - Socially-distanced firing points – only staff and athletes permitted in the firing area
- *Open practice procedures:*
  - Athletes will be able to reserve a single 110-minute slot per night
    - Sign up at <https://tinyurl.com/sillsopenpractices>
    - Reservations open 24 hours prior to the open practice start time
  - Some slots will be reserved for brand-new and/or beginning athletes
    - If you have been to the range twice, sign up for an open practice slot
- *Face Coverings:*
  - Face coverings required at all times except while in the act of shooting
  - Put on mask after grounding the air gun and inserting the CBI
- *COVID Screening:*
  - If you have COVID-like symptoms or first-person COVID exposure, do not enter the air range
  - Successful temperature scan required upon entry to the lobby (<100.4 °F)
  - If still over 100.4 after two attempts, no entry is allowed into the building
- *Coaching:*
  - Coaching is allowed as long as all participants are in agreement
  - Coaches (and other volunteers) must wear masks at all times while in the air range
  - Coaching should occur from a distance but occasional “close coaching” is permitted
    - Such as quickly changing rifle settings, fixing buttons, etc
  - It is highly recommended for athletes to wear face covers during “close coaching”
- *Club Equipment:*
  - The following is available for use based on the cleaning procedures below:
    - Club air rifles/pistols, prone mats, slings, gloves, jacket, handstops, pellet trays, offhand stands, sandbags, bipods, kneeling rolls, and wrenches
  - Athletes are encouraged to purchase and use their own equipment if possible

## Hygiene and Cleaning Procedures

- Washing station and hand sanitizer available for general use
- Wipes or Diamond 1000<sup>1</sup> spray used for equipment and hard surfaces
- *Air Cylinders*
  - After filling, spray a paper towel and wipe down before returning to the athlete
- *Rifles and Pistols*
  - Unless wearing gloves, spray and wipe down before handing out to an athlete
  - Upon return, spray a paper towel, wipe down the air gun, and let air dry for 10 minutes on a rack or table (not in the safe)
  - Make full use of our air gun inventory as needed
- *Off-hand Stands, Prone Mats, Kneeling Rolls*
  - Athletes are encouraged to retrieve club gear from the cabinets themselves
  - Upon finish, spray a paper towel, wipe down, and let air dry for 10 minutes in a vacant lane
- *Pellet Trays, Slings, Handstops, Wrenches, Bipods*
  - Athletes are encouraged to retrieve club gear from the cabinets themselves
  - Upon finish, spray a paper towel, wipe down, and let air dry for 10 minutes on a back table
- *Gloves, Jackets*
  - Gloves and jackets may only be used once per day
  - Athletes are encouraged to retrieve club gear from the rack themselves
  - Upon finish, items are taken out of circulation for the day and hung/stored separately until the next practice
- *Sandbags*
  - Cover with plastic wrap – then discard plastic wrap when an athlete departs
- *Lane Monitor and Lane Tables*
  - Spray a paper towel and wipe down – do not spray electronics
- *Range closing*
  - Conduct normal range cleaning activities
  - Also wipe down equipment and commonly-used hard surfaces as needed

---

<sup>1</sup> The Diamond 1000 spray solution (pink solution in the spray bottles on the range) is an EPA-approved Disinfectant, Sanitizer, and Virucide (EPA Registration #: 10324-63-4238).
